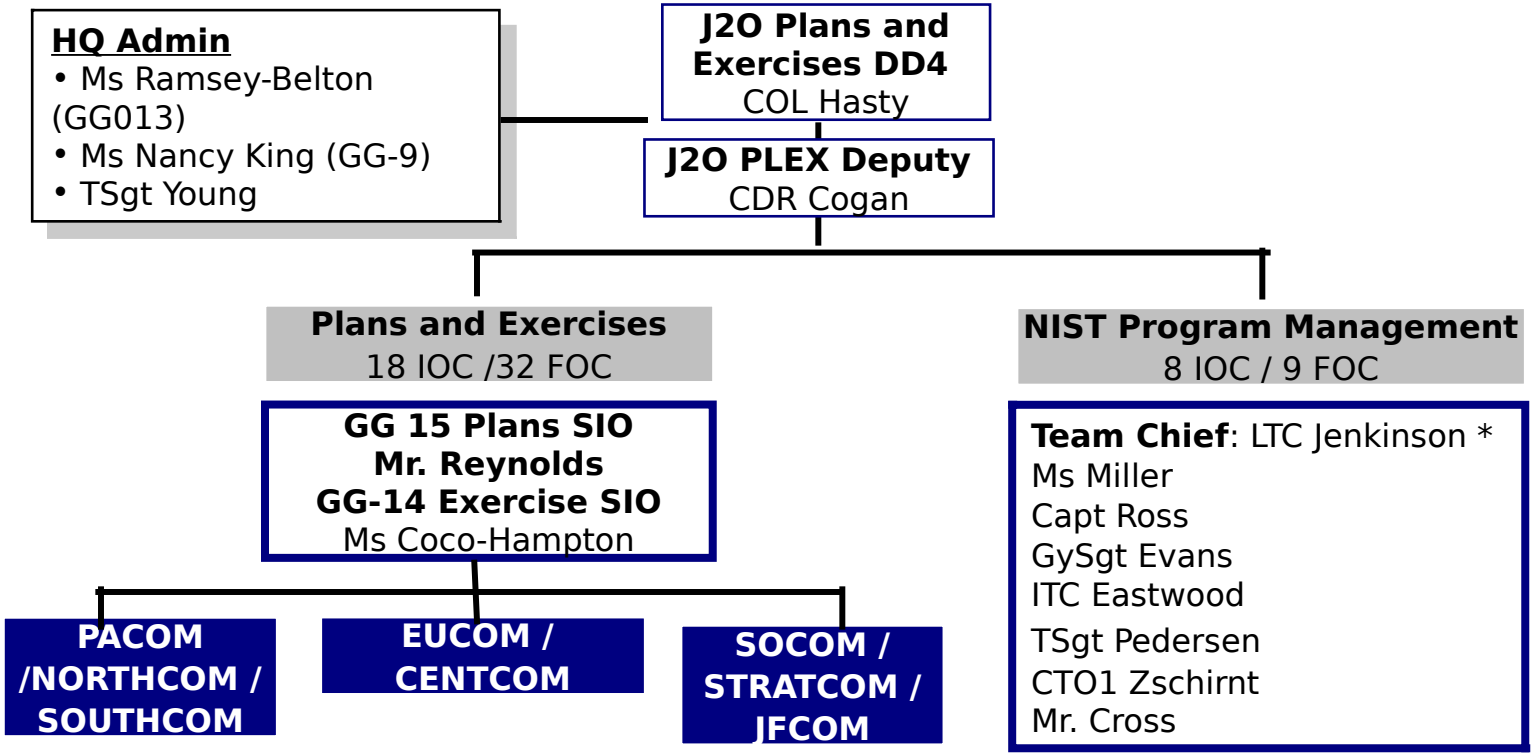
J2 Plans and Exercises

J2 Plans and Exercises



Chairman's Exercise Program

Chairman's Exercise *Program* (CJCS I 3511.01)

- CJCS Exercises: (POSITIVE REPONSE, POSITIVE FORCE (mobilization and sustainment), NATO CMX (NATO crisis management), ELIGIBLE RECEIVER (interagency no-notice counter-terrorism focus) and THEATER MISSILE DEFENSE (US-Russia only – J2 does not participate).

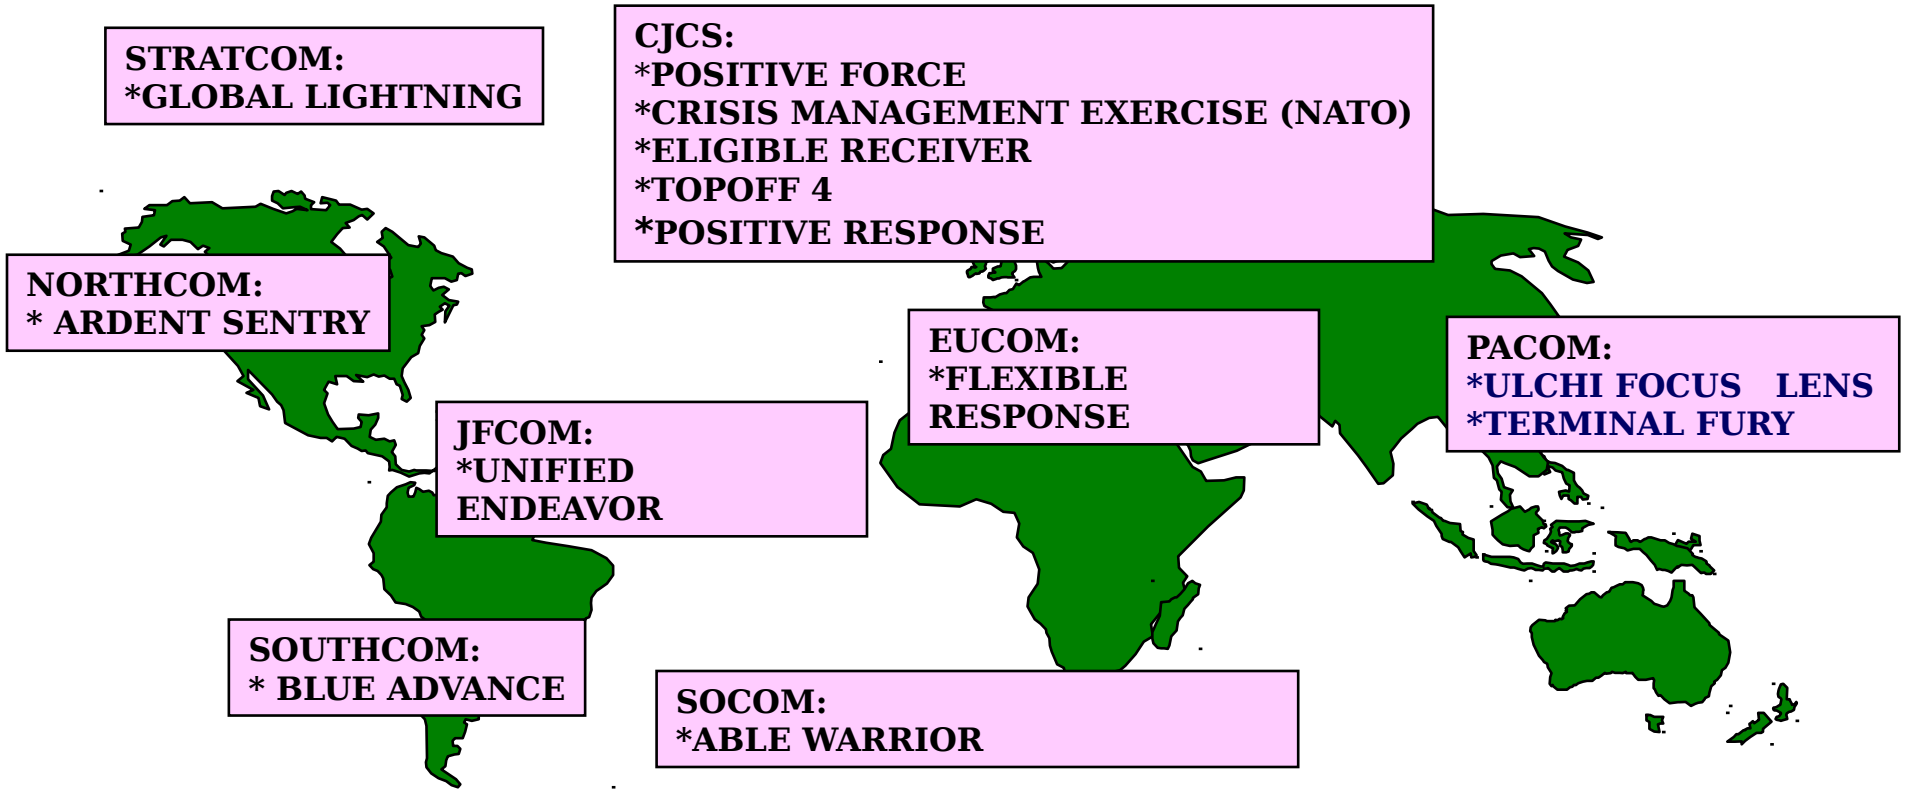
- COCOM Exercises: 125 Chairman-sponsored exercises
  - DJS directed JCS J7 to synchronize COCOM exercises with the 5 CJCS exercises
  - SECDEF directed 30% reduction in COCOM exercises. FY 07 has approx 109
  - ICP becoming focus of intel play in exercises…CSAs are participants vice response

J2O Support to Chairman's Exercise Program

- Partner with JCS J7 in CJCS exercises (4 out of 5)

- Support one exercise per COCOM per year (exception PACOM, MRX)
  - Approx 10 COCOM exercises per year determined by:
    - World Wide Training and Scheduling Conference
    - COCOM Contacts
    - NESWG

FY 2006 Global Exercise Support



J2O Types of Exercises & Level of Support

Focus: Exercises in which CSAs can exercise their own training objectives

COCOM Exercise Support (requested through the CESR)

- Intel Campaign Planning (ICP)
  - New mission area: primary POC for COCOM intel controller for ICP
  - Scope ICP Objectives & manage ICP planning (MSELs, Products, Structure)
- Exercise DIA / J2 Objectives
  - Work with COCOMs and DIA OP to determine DIA objectives (ie, NISTS, METLs)
  - Coordinate all exercise planning for training
- Replicate Alternate NMJIC / Lead National Agency Team
  - Define, coordinate, manage, disseminate products
  - Answer national level RFIs
  - Replicate “beltway pressure” on COCOMs during crisis; Role play and / or mentor
- Broker DIA and National Agency support for COCOMs
  - Develop an exercise support package for each COCOM exercise as required

Other J2O Exercise Functions

Exercise COLISEUM

- J2O created and manages the EXNMJIC VO account in COLISEUM to exercise realistic RFI processes.
- Tests and sets up COLISEUM architecture for COCOM exercises

ALTNMJIC

- Intel Control and/or Player Cell for CJCS exercises
- Reachback control cell in COCOM exercises

Consolidated Exercise Support Request (CESR) Manager

- Official message requesting IC live collection, simulated products, & manning
- J2O manages the *format* - official response for exercises we support
